## Software Engineer

### ABOUT ME

I am a software engineer from Itagüi, Antioquia, Colombia. Currently a 9th-semester student and passionate about technology, I am beginning my professional career in software development. I have solid knowledge of programming languages and frameworks, and I am eager to apply my skills to real projects. My goal is to contribute to innovative solutions that generate a positive impact. I am excited about the opportunities ahead and look forward to collaborating with talented teams in the technology industry.

I am characterized by being self-taught, with a great ability to solve problems and passion for mastering new technologies. I perform well in collaborative environments and am always willing to learn from others. My goal is to leverage my skills and knowledge to create impactful software solutions that enhance the user experience and drive innovation.

### EDUCATION

#### Software Engineering Student

##### Pascual Bravo University Institution

August 2021 - Present

Software Engineering student with training in application development, software architecture, databases, agile methodologies, and project management. Active participation in practical labs and real-world projects, strengthening technical skills, teamwork, and problem-solving.

#### Technician in the Artisanal Production of Leather Products

##### National Learning Service (SENA)

January 2019 – November 2020

Technician in the design and manufacturing of artisanal leather products. Training in leather goods, from material processing to final finishing. Professional internships in a real-life production environment, developing manual skills and knowledge of the marketing process.

#### Primary and Secondary Education

##### María Josefa Escobar Educational Institution

January 2009 – November 2020

Basic and secondary education focused on academic and personal development. Participation in school projects and extracurricular activities that reinforced skills in science, humanities, critical thinking, and social responsibility.

## EXPERIENCE

### V V TECHNOLOGY SAS

December 2024 - February 2025

During my time at V V TECHNOLOGY SAS, I worked as a salesperson for technology products and solutions. My main responsibilities included:

- Direct customer service at the point of sale, providing advice on technological products and their characteristics.
- Practical demonstration of equipment and devices to potential customers, explaining their functionalities and benefits.
- Finalizing sales and processing commercial transactions.
- Basic inventory management and recording of sold products.
- Customer follow-up after the sale to ensure their satisfaction with the purchased products.
- Meeting monthly sales targets established by the company.
- Participation in training on new products to stay updated on the company's offerings.

This experience allowed me to develop important skills in customer service, sales techniques, and technical knowledge about current market technology products.
